Advocate™ Poster Display Sign

Display your advertising posters in style with this extremely robust, low maintenance and easy to use unit designed to boost sales and awareness. Advocate is manufactured from tough, corrosion resistant Durapol®* material, which offers exceptional strength and a long service life.

The large display area holds a 40 x 30 inch poster to give outstanding visual impact. The posters can be easily changed, providing a cost-effective way of advertising your products. Advocate has a slimline design, that makes it easy to manoeuvre, allowing you to display your advertisements in the best position for each promotion.

Available as a single or double sided display sign or a wall mounted display sign to suit your requirements. The large curved base provides stability and must be filled with water or sand to minimise the risk of the unit blowing over.

To find out more about the features and benefits of Advocate contact our sales office.

Height: 1525mm Width: 885mm Depth: 775mm

Orion™ Storage Unit

Orion Storage Unit is a robust, low maintenance unit designed to help increase retail sales and profit.

Orion's large display area provides easy access to goods and encourages customers to buy. Orion is manufactured from corrosion-free Durapol® material, offering exceptional strength and a long service life. Orion is impervious to leaks and spills from commonly displayed products such as screen wash and rock salt, and can be easily wiped clean. Available with a Rollatec™+ material cover, for weather protection and to hide the contents from view, or with a Vandalex®# material shutter to provide extra security in high risk areas. Alternatively, Orion is available without a cover for 24-hour sites.

Height: 981mm Width: 1816mm

Colours: Red, Anthracite Grey, Dark Blue, Black.

*Durapol® material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol will not chip or rust, is easy to clean and never needs painting.

+Rollatec™ polymer is formulated to offer weather resistance and maintenance free use. It will not rust, is easy to clean and never needs painting.

#Vandalex® material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised finish will not rust, is easy to clean and never needs painting.

Auto-Mate™ Petrol Forecourt Bin

Auto-Mate holds and dispenses plastic gloves and paper towels, whilst also functioning as a litter bin. Manufactured from Durapol, Auto-Mate is easy to clean, it will not chip, rust or corrode and is self coloured.

Auto-Mate has a smooth contoured, slimline shape with a stylish, modern appearance. It offers many user-friendly features and has been designed specifically to be sited at petrol pumps. Its compact design makes the unit ideal for busy customers and working environments.

Auto-Mate is the preferred choice of many national chains and can be supplied in custom colours for contract customers, please contact our sales office for more information.

Height: 1160mm Litter Capacity: 85 litres

Colours: Red, Grey, Black.

(Other colours are available on request, including Oyster White, Dark Blue and Light Green.)

Super Guppy™ Litter Bin

A strong weather resistant litter bin with a smooth low maintenance finish and a lockable lid.

Height: 965mm Capacity: 85 litres

Colours: Red, Dark Blue, Light Green, Deep Green, Light Grey, Black.

Topsy 2000™ Litter Bin

Topsy 2000 is easy to empty without the need for strenuous lifting. The bin features a secure keyless locking system or 5 point key-lock.

Height: 1000mm Capacity: 90 litres

Colours: Bright Red, Yellow, Light Blue, Dark Blue, Light Green, Deep Green, Black, White, Light Grey.

Modus™ Housing

A high capacity litter/recycling bin housing, which securely contains a wheeled bin in a tidy manner.

Colours:

Frame: Silver. Hood: Anthracite Grey. Ecoboard™** Panelling: Dark Grey.

Please contact our sales office for details on recycling apertures and graphic options.

***Siting Recommendations**

We recommend that a risk assessment is undertaken to identify an appropriate location for your waste collection and recycling units. In order to reduce risk, some organisations decide to place the units a minimum of 5 metres away from buildings. Any potential risk can be further reduced by maintaining a regime of regularly emptying the unit.

**Ecoboard™ panelling is manufactured using 100% post consumer waste (mixed plastics).
